

News Release

November 4, 2009 – Ray Morrison Elected as Chair of Saskatoon Board of Education

Ray Morrison was elected chair of the Board of Education for Saskatoon Public Schools by his fellow trustees at their inaugural meeting on November 3rd.

“It is an honour to be entrusted with the chair of this great institution,” said Morrison. “As trustees, it is our diverse backgrounds and life experiences that we draw on to make decisions at the board table. As chair, I will work to ensure each trustee contributes their opinions on all decisions and ensure our discussions are balanced and fair.”

Chairperson Morrison outlined the following as keys to the continued success of Saskatoon Public Schools.

- Trustees must, as much as possible, provide equal opportunities to all students across the division, and ensure each student has the programming and resources to be successful.
- The Division must provide the programming and supports needed by our increasingly diverse population. Saskatoon Public Schools are open to all students.
- Saskatoon Public Schools must continue to be a leader in education and continue to move the education agenda forward at the provincial level.
- The Board must provide the staff of Saskatoon Public Schools with the training, tools and environment they need to provide enriching learning opportunities for all students.

Ray Morrison has served on the Board of Education for Saskatoon Public Schools since 2003.
