

Meewasin

The purpose of this letter of understanding is to outline Beaver Creek Conservation Area (BCCA) site usage by Saskatoon Public School (SPS) Students visiting Brightwater Science and Environmental Centre.

In consultation between Meewasin Valley Authority and Saskatoon Public Schools Brightwater Science and Environmental Centre the following criteria have been outlined for Beaver Creek Site Visitation:

- Visits will occur during Beaver Creek Conservation Area hours of operation which are 9:00 am– 5:00 pm on weekdays.
- Students will be transported by vehicle to Beaver Creek’s interpretive centre through the front gate of Beaver Creek.
- Please call ahead with as much prior notice as possible when booking your visit. As opportunity permits BCCA can provide a free of charge 15 to 30 minute group introduction to the site and its related flora and fauna. Depending on BCCA staff availability a site interpreter can be booked for complete program presentations at \$35.00 per hour. Call 374-2474 for more information.
- BCCA delivers a Grade 5 Environmental Education program throughout the year with classes on-site from 9:30am to 2:30pm. If visiting BCCA during these times site restrictions will apply to any secondary groups. Please consult with BCCA staff so that you can be directed to appropriate areas of the site.
- All visitors to Beaver Creek are expected to adhere to the site guidelines and show respect to the environment.
