### Life Science – Diversity of Living Things (DL)

DL6.1 Recognize, describe, and appreciate the diversity of living things in local and other ecosystems, and explore related careers.

DL6.4 Examine and describe structures and behaviours that help:  
individual living organisms survive in their environments in the short term  
species of living organisms adapt to their environments in the long term.

*Inquiry Questions (via snowshoes or hiking and spending time in the quinzee):  
What does a polar bear and a snowy landscape have in common? If you were a mouse out here in the winter how would you stay warm? How would you find food? What is prairie? What animals stay active on the prairie all winter? What do the other animals do? Can we find signs of activity?*
