FRENCH IMMERSION AT SASKATOON PUBLIC SCHOOLS

French Immersion is a program designed for students whose first language is not French. The program uses French as the primary language of instruction and communication in the school setting to enable students to acquire functional language skills.

The goals of Saskatoon Public Schools' French Immersion program are to:

- offer a comprehensive French education allowing for the personal development of students, and
- increase French language learning competence while also developing students' English skills.

The aim of the French Immersion program is for students to communicate effectively in Canada's two official languages. Upon completing the program, students are able to:

- pursue post-secondary education/training in both French and English,
- pursue employment in French and English, and
- possess an understanding of global perspectives on cultures and peoples, including their own.

The approximate percentage of instruction in French through K-12 French Immersion is as follows:

- 100%—Kindergarten to Grade 2
- 75%—Grade 3 to 8
- 50%—Grade 9 to 12

TIPS FOR PARENTS

Parents do not need to speak French in order to enroll their children in French Immersion. Most parents have little or no French language skills. While teachers foster students' language learning at school, parents can also support their child's learning at home:

- encourage your child throughout their learning journey, especially during the initial fall term when students are learning the basics of a new language,
- engage your child with meaningful language opportunities at home by reading, viewing and listening to materials in French, and
- recognize your child's accomplishments to build their confidence for tackling new challenges.
