

Saskatoon Public Schools
Inspiring Learning

in collaboration with

- Saskatoon Greater Catholic Schools
- Saskatchewan Career/Work Education Association
- Saskatoon Industry-Education Council
- Ministry of Education
- Saskatoon and area businesses

On Wednesday, November 6, 2019
thousands of Grade 9 students
across Canada will be participating in
Take Our Kids to Work Day

They will spend the day in the work force to
gain a better understanding of what it means
to go to work.

*There is a lot of work done in the schools and in
the workplace. Students are given the
opportunity to make a positive link between
their classroom lessons and the work world.*

TAKE KIDS OUR TO WORK

connecting Grade 9 students
with the world of work

A **DAY** for a young person to experience the challenges and rewards of the workplace.

A **DAY** for a young person to become aware of the demands within the work force.

A **DAY** for a young person to experience the environment of a "real life" work situation.

A **DAY** for a young person to gather information to enable him or her to make a more informed career decision about the educational choices they need to make.

The goal is to strengthen relationships between adults and young people, and develop community responsibility for the future of our young people.

Take Our Kids to Work

Working Together in Saskatoon

Wednesday, November 6, 2019

Every **student** in the Grade 9 program will have an opportunity to attend a work site with a parent, guardian, friend, or relative. Students will have particular tasks and assignments to complete prior to, during, and following the Take Our Kids to Work Day.

Each **parent/guardian** is encouraged to support this venture along with their employer.

A **business** wishing to volunteer may host a Grade Nine student or students at their workplace.

Saskatoon Public Schools appreciates our partnerships with business, labour, and government. Career development and work experience initiatives prepare our young people for the challenging future awaiting them.

Outcomes

- ✓ **Students** gain insight about themselves and various occupations, thereby empowering them to make important decisions about their future.
- ✓ **Parents/Guardians** will see children succeed because of reliable resources and guidance.
- ✓ **Adults** will share an understanding of their work world.
- ✓ **Schools** develop partnerships which result in serious students being excited about learning.
- ✓ **Business** will commit to making this day a valuable experience by showing the importance of skills, training, and educational requirements needed to succeed at work.
- ✓ **Business** benefits from informed graduates entering the workforce.

Our Saskatoon business community can make exciting things happen in our young people's future—everyone wins!
