High School students under the age of 18 must have the prerequisite course(s). It is highly recommended that students under the age of 18 discuss their Summer School registration with their school counsellor to ensure they have the prerequisite course and that their choices for 2024-2025 are updated to reflect their plan for taking a course during Summer School.

These courses provide 60 hours of classroom instruction, as well as daily extensive homework/study time. Students taking these courses are expected to attend all sessions. Not all Summer School classes require textbooks but for those that do, textbooks will be handed out by the instructors at the first class and are on loan to students for the duration of the course for free. Textbooks must be returned to the instructor immediately before or after the final assessment.
