What is the time Commitment?

Each course is designed to be about 100 hours of course work—which is equivalent to an hour a day, five days a week for a semester. Our courses are available any time of the day or night, so you won't have to be sitting at a certain place at a certain time to be successful.

How will I Stay on Track?

A course schedule will be provided for you for each of your classes that will give you a guideline for completing your course on time. If you fall behind, your teacher will be in touch to help you with tools for getting caught up and staying on track.

What do I need to supply?

High school students taking a software-dependent course should contact their primary school to obtain access to the required software.
