

Saskatoon Public Schools Foundation

### supporting

Supporting students is at the heart of the Saskatoon Public Schools Foundation and we are energized by student success. Formed in 2008 the Foundation is dedicated to fostering unique educational opportunities for young people by removing barriers and providing enrichments that help them realize their learning potential.

We know that public education is at its best when we engage the community. Thanks to the generous support of caring individuals, corporations and community groups the Foundation is playing an integral role in providing personalized learning and innovation for students at Saskatoon Public Schools.

Our funding priorities are:

Literacy
Programs of Excellence
Enhanced Education School Grants

## collaborating

### Programs of Excellence

*Programs of Excellence* are initiatives that engage this community in inspiring programs that are unique, innovative and educational.

Generous donations to the Foundation have supported the Cameco Centre of Excellence in Science and Mathematics, the PotashCorp Eco-Science and Indigenous Learning Centre, Bus Passes for 200 students, nutritious snacks, breakfasts and lunches to thousands of students, the development of community gardens, Soundfield Systems in 14 classrooms and so much more.

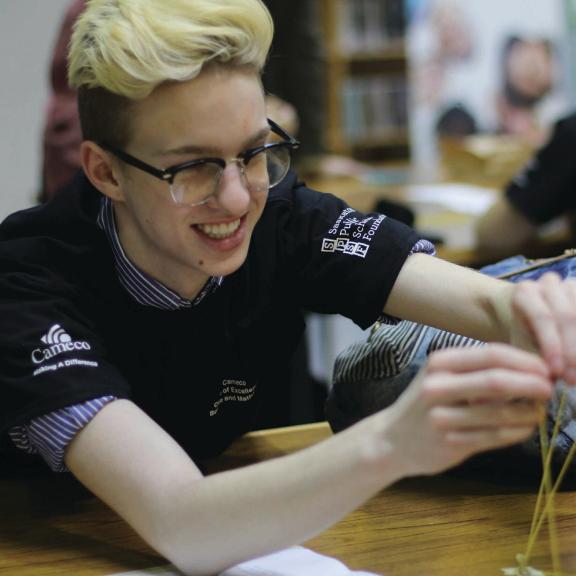

## nurturing

### Literacy Connections

Literacy is one of the most important gifts we can give to a child. It opens doors of opportunity and a lifetime of learning. Children who are confident in their reading ability go on to achieve higher academic success - from there the possibilities are endless. The Foundation is proud to support student literacy programming and is highly invested in helping children become confident readers and learners.

Donations to the Foundation have funded Literacy programs such as Summer Reading Camp, the Literacy Tutor Program, Community Readers, Aiming Higher, Achieving More, a program that provides literacy and numeracy coaches to high school students.

Literacy Connections is making a remarkable difference.

# enhancing

### Enhanced Education School Grants

Each year the Foundation provides each school with an annual grant that supports unique and innovative learning opportunities. Our Enhanced Education School Grants encourage students to make a difference in one or more of the following areas: citizenship, cultural responsiveness, student leadership, healthy active living, environment and the arts.

An example of the grants that have been funded through the school grants program include: *Snow Angels Project*, cultural and diversity events, hot chocolate and gifts to people at Friendship Inn, creation of mural boards, circus arts training and performances and so much more.

## inspiring

The Saskatoon Public Schools Foundation is an independent, non-profit organization dedicated to mobilizing community support for extraordinary initiatives that go above and beyond for students attending Saskatoon Public Schools.

We are doing everything we can to lift the learning for students. We welcome any opportunity to discuss a charitable gift to the Foundation and the ways in which you can invest in student success

With your support, today's children will transform into tomorrow's leaders.
