

New Grade 9 Program at MMGCI

- Are you interested in learning more about technology in a project-based approach, while meeting the learning outcomes for Gr. 9 Math, Science, Arts Education and English?
- Does a future career in Engineering and the Technology sector appeal to you?
- Are you aware that Saskatoon is already a world leader in the technology sector?
- Do you want to learn and partner with experts from the College of Engineering at the UofS, SaskPolytech, and local businesses?
- Do you want a head-start in this exciting industry?

***... Then the "Full STEAM Ahead" program at
Marion M. Graham Collegiate is for you!***

- **A half-day program for Grade 9's that runs all year!**
- **This program will foster creative and innovative thinking in students!**
- **It will create opportunities for students to apply curricular knowledge to real-life situations!**
- **The students will engage in weekly challenges, work with robotics, 3D printers, coding, tinkering fairs, makerspaces, and utilize the design process! Phone 306.683.7750 if you are interested!**
